This measure amends Section 19 of Article II of the State Constitution. Presently, jury trials are allowed for civil cases involving $100.00 or more and for criminal cases with fines of $100.00 or more. This measure would raise the requirement to more than $1,500.00 for both civil cases and criminal cases. Presently six person juries are allowed only in some civil cases involving less than $2,500.00. This measure would require 12 person juries in civil trials involving more than $10,000.00 and for all felony trials. Other trials would require six person juries. The parties could agree to smaller juries in any case. Presently, unanimous jury verdicts are required only in felony trials. This measure would require unanimous verdicts only in criminal cases with punishment exceeding six months in jail. Only 3/4 verdicts would be required in other cases.

This measure amends the State Constitution. It amends Section 24 of Article II. The section deals with the taking of private land for public use. The section requires that payment be made for such takings. It now requires that the amount of payment be set without taking into account any benefits to the land which might result from any public improvements. This measure would change the way the amount of the payment is set. The change defines just compensation. It would mean the value of the part of land taken and for injury to the part of land not taken. It would allow the consideration of benefits to the land from the public improvement in setting the amount of payment. The land owner would not be required to pay for benefits that were greater than the injury to the land not taken.

This measure would add a new section to the State Constitution. It would be Section 27B of Article X. It would let cities and towns borrow money for buying, building or improving public utilities without levying any additional tax. The debt would be repaid from pledged funds or revenues. This process would require approval by three-fourths of the governing body of the city or town. Voters would be required to approve the financing of the projects in some cases. The utility would be owned by the city or town. The borrowed money would not be considered a debt of the city or town for purposes of any type of debt limit. Unless the utility consents, this section would not apply to the purchase of any utility regulated by the Corporation Commission.

This measure amends Article V, Section 26 of the Oklahoma Constitution. It sets the dates on which the regular session of the Legislature can be held. The Legislature must meet every year at noon on the first Monday in February. Its session must be finished by five p.m. on the last Friday in May every year.

In odd-numbered years, the regular session would also include one day in January. The Legislature would meet at noon on the First Tuesday after the first Monday in January. It would recess not later than five p.m. on that same day. On that one day the Legislature could only perform limited Constitutional duties. Those duties include publishing state election results and organizing itself. The regular session would resume at noon on the first Monday in February of that year.

This measure amemds the Oklahoma Constitution. It amends Sections 9, 10 and 12a of Article X. It combines property tax levies for school districts into a total annual levy of 44 mills. Mill levies more than 39 mills must be used for the building fund. School district voters could change the number of mills levied. The number of mills levied could not exceed 44. This measure will change the way local school property taxes on certain property are distributed. Some taxes from the property of airlines, railroads, public service companies and commercial/industrial property valued more than $500,000.00 will be placed in a Common School Fund. Taxes on this property less than $500,000.00 would stay with the local school. Taxes on this property for school buildings won't go into this Fund until 1995. The Legislature would decide how the Fund is distributed to schools across the state.

This measure amends the Oklahoma Constitution. It amends Section 3 of Article XI. That section sets out the way income from the leasing of public lands is distributed to common schools. It also sets out the way certain interest is distributed to the schools. Currently, these funds are given to the school districts based only on how many students they have. This measure would change that. It creates the Oklahoma School Land Fund. These funds would be deposited in the Fund. The Legislature would decide how the Fund would be distributed to the common schools.
